

Your ROI Snapshot: vMeasure Pallet Ultima

Who We Are

VisAI Labs, the makers of vMeasure and vAudit, build on the legacy of the world's 3rd largest OEM camera manufacturer. We use computer vision to automate data capture at warehouse entry and exit points, driving efficiency, accuracy, and automation.

Since 2020, we've deployed over 1,000 dimensioning units across 20+ countries, helping businesses improve KPIs, increase throughput, and cut payroll and freight costs.

Join the growing network of businesses that trust vMeasure for efficiency, accuracy, and real ROI.

Why vMeasure Pallet Ultima Matters

With the new NMFC 2025 shift, every dimensional errors now incur penalties. The vMeasure Pallet Ultima is designed to automate this process with speed and accuracy. The computer vision technology captures dimension and dimensional weight in real time and ensure compliance with NMFC requirements.

- **Fast & Accurate**
 - » Captures dimensions, weight (with scale), and images in less than 2 seconds
 - » Accuracy: ± 0.4 Inches on height, ± 0.8 Inches on width & length
- **Full 360° Visibility**
 - » 2 -3 synchronized cameras
 - » Complete top-to-bottom, all-angle coverage, no blind spots
- **Seamless System Integration**
 - » Plug-and-play with WMS, TMS, ERP
 - » No-code API + cloud tools = auto data sync

Length	Width	Height
2.5	2.5	11
5	5	10
